Agree, the e-mails are terrible. The filters only filter some of them. We (reproductiv and I) have mixed feelings toward the labs, but agree that it is a good idea to be ready to answer questions from leadership while considering what we want to do in the future.

I am thinking about doing an assessment of residents (here) and programs (nationaly) to guage opinions, experience, etc.

These are the draft questions I was thinking about.

I submitted a request for determination with Marci to see about IRB approval.

Let me know your thoughts.

Thanks,

Hundreds of emailsâ€¦you should make sure you have bullet points to share with the Dean and President, just in case.

Happy to discuss.

All the best,
