Let's set up a meeting to discuss utility of the pig labs. Frankly, I am tired of these e-mails. I think it would be useful to get resident feedback – I met with chiefs last night and most of them do NOT find the pig lab to be useful. I'm sure the junior residents do but overall it may be good to discuss alternatives. I'm not sure I have the bandwidth to go up against Jacobs and Jacoby...

Thanks

Hundreds of emails....you should make sure you have bullet points to share with the Dean and President, just in case.

Happy to discuss.

All the best,

abc
