Attention: Mr. Logan Rohr, Owner

## NOTICE OF SUSPENSION

This letter serves as official notification by the Food Safety and Inspection Service (FSIS) of our decision to withhold the federal marks of inspection and suspend the assignment of Inspection Program Personnel (IPP) at 3D Meats, LLC, Est. M45377, located at 14740 E. Lincoln Way in Dalton, OH. This letter follows verbal notification of the suspension action, provided by Dr. Kelsey Travis, Deputy District Manager, to you, Mr. Logan Rohr, Owner, at approximately 3:21 pm EDT on July 29, 2024. This action includes your Slaughter Hazard Analysis Critical Control Point (HACCP) processes employed at your establishment.

The decision to institute this enforcement action is in accordance with Title 9 of the Code of Federal Regulations (CFR), Rules of Practice 500.3(b), based on the determination that your establishment did not handle or slaughter animals humanely. The evidence demonstrates failure to comply with the Federal Meat Inspection Act (FMIA) (21 U.S.C. 603), the Humane Methods of Slaughter Act (HMSA) (7 U.S.C. 1901 *et seq.*), and the regulatory requirements (9 CFR Part 313).

### Background/Authority

The FMIA (21 USC 601 *et seq.*) provides it is essential to the public interest that the health and welfare of consumers be protected, by assuring meat products distributed to them are wholesome, not adulterated, and properly marked, and labeled. The Act gives FSIS the authority, as designated by the Secretary of Agriculture, to prescribe rules and regulations describing sanitation requirements for inspected establishments and provide FSIS program personnel the authority to refuse to allow meat/meat food products to be marked, labeled, stamped, or tagged as *inspected and passed*, to prevent the entry of adulterated products into commerce. Furthermore, the FMIA provides FSIS the authority to appoint inspectors to examine and inspect the method by which livestock are slaughtered and handled at slaughtering establishments.

The HMSA provides that Congress finds that the use of humane methods in the slaughter of livestock prevents needless suffering; results in safer and better working conditions for persons engaged in the slaughtering industry; brings about improvement of products and economies in slaughtering operations; and produces other benefits for producers, processors, and consumers which tend to expedite an orderly flow of livestock and livestock products in interstate and foreign commerce. It is therefore declared to be the policy of the United States that the slaughtering of livestock and the handling of livestock in connection with slaughter shall be carried out only by humane methods.

Under the authority of the Acts, FSIS has prescribed rules and regulations required for establishments handling and slaughtering livestock, as required by 9 CFR Part 313. FSIS has also developed the Rules of

Practice regarding administrative enforcement, 9 CFR Part 500. The Rules of Practice describe the types of enforcement actions that FSIS may take and include procedures for taking a withholding action and/or suspension, with or without prior notification, and for filing a complaint to withdraw a grant of inspection. Specifically, 9 CFR 500.3(b) states that FSIS may impose a suspension without providing prior notification due to handling or slaughtering of animals inhumanely.

### **Findings/Basis for Action**

On July 29, 2024, at approximately 1:55 pm, the Consumer Safety Inspector (CSI) was on the harvest floor inspecting a sow carcass and taking a NARMS sample when she heard the last sow being stunned with a firearm in the modified cattle knock box located in the barn. The CSI heard the first shot and immediately heard a second shot. After the second shot, the sow let out a loud squeal. The CSI then heard a third shot, and again, the sow let out a loud squeal. Then a fourth shot was administered and no vocalization from the sow followed. When the side panel of the knock box was raised, the CSI observed the unconscious sow. The sow was then shackled, hoisted, and bled out. After informing her supervisor of the event, the CSI took verbal regulatory control of the slaughter process and notified Mr. Logan Rohr, Owner, of her observations. Upon inspection of the sow's head, the CSI observed three smaller penetrating wounds in between the eyes, close together, and one larger penetrating wound higher up on the skull and to the left of the other three. A 9 mm handgun was used for the first three stunning attempts and a .460 rifle was used for the fourth stunning attempt. U.S. Retained Tag #B32709515 was applied to the knock box.

On September 9, 2004, FSIS published "*Humane Handling and Slaughter Requirements and the Merits of a Systematic Approach to Meet Such Requirements*" in the Federal Register (69 FR 54625). On September 24, 2020, FSIS released FSIS Directive 6900.2 Revision 3, entitled, "*Humane Handling and Slaughter of Livestock*." Additionally, on October 23, 2013, FSIS introduced new guidance, titled "*FSIS Compliance Guide for a Systematic Approach to the Humane Handling of Livestock*." Within the guidance material is information intended to better ensure the humane treatment of livestock presented for slaughter. The guidance material provides a set of practices designed to minimize excitement, discomfort, and accidental injury regarding the humane handling of livestock to include the four components of a robust systematic approach to humane handling.

When an establishment maintains a robust humane handling program, FSIS can exercise regulatory discretion when an inhumane handling or slaughter incident is observed. You do not currently maintain a written humane handling program for consideration.

### **Summary and Conclusion**

Provisions of the FMIA outline FSIS' ability to refuse to render inspection and indefinitely withdraw inspection from an establishment, provided the establishment is afforded the right to an administrative hearing, when conditions exist where the handling and/or slaughter of livestock was not by a method in accordance with the Act(s). Evidence demonstrates your failure to meet regulatory requirements addressed in 9 CFR 313.16(a)(1), constituting a violation of the humane slaughter requirements, and supporting the conclusion that your handling of livestock violated the provisions of the FMIA and HMSA.

Please provide a written response to the Chicago District Office which address the following:

- Evaluate and identify the nature and cause of the incident.
- Describe the specific actions taken to eliminate the cause of the incident and prevent future recurrences.
- Describe specific monitoring activities planned to ensure future compliance.
- Provide any supporting documentation and records maintained and/or associated with the proposed corrective actions and preventive measures.

A determination of further administrative action will be made upon receipt and review of your submitted corrective actions and preventative measures. You are reminded that, as an operator of a federally inspected establishment, you are expected to comply with FSIS regulations and to take appropriate corrective actions to prevent the production of or adulterated products at your establishment. Please be advised that your failure to respond adequately to these issues may result in our initiating action to withdraw inspection from your establishment.

### **Appeal and Hearing Rights**

You have the right to appeal this matter and can do so by contacting:

Ms. Karen Hunter  
Executive Associate for Regulatory Operations  
Office of Field Operations  
Food Safety and Inspection Service  
United States Department of Agriculture  
SB, Room 3129  
1400 Independence Avenue, SW  
Washington, DC 20250  
Email: [karen.hunter@usda.gov](mailto:karen.hunter@usda.gov)  
Phone: (202) 499-0275

Pursuant to 9 CFR 500.5(d), you may also request a hearing regarding this determination. Should you request a hearing, FSIS will file a complaint that will include a request for an expedited hearing. If you wish to request a hearing regarding this determination, please contact:

Dr. Ashley Etue, Acting Director  
Enforcement Operations Staff (EOS)  
Office of Investigation, Enforcement and Audit (OIEA)
