

Establishment Number	Establishment Name	Description
P7487	Koch Foods, LLC	<p>On 7/25/24 at approximately 10:32 pm , I SCSI REDACTED while performing the Good Commercial Practices Verification Task at the live-hang dump system area, observed 1 live bird to be trapped under a cage on top of the live bird dump system by both legs. The cage was slightly raised with the live bird's legs trapped underneath the cage. I asked the plant superintendent REDACTED could the cage be lifted to free the trapped live bird. Instead of the cage being lifted off the live bird, the establishment employee dropped the cage onto the legs of the live bird. When the cage was lifted off the live bird, I observed both legs were mangled. Establishment supervisor REDACTED held the bird up for me to see, and then he threw the bird onto the live hand conveyor belt with the other live birds. I informed live hang supervisor REDACTED of my observations and of the forthcoming GCP MOI issuance.</p>
